| Title of the event: Expert Lecture on JQuery | | | |
| Coordinator: Prof. Jalpa Shah | | | |
| Venue: | D-401-A | Date: | 12/03/2022 |

Abstract:

This hands-on session navigates through JQuery, an intuitive and powerful platform for creating dynamic websites for the students of 5th semester. Participants delve into JQuery's user-friendly interface, learning to build and customize websites without extensive coding knowledge. From setting up a domain to crafting engaging content and incorporating themes and plugins, this workshop demystifies the process. Practical exercises and case studies empower attendees to harness JQuery's versatility for personal or professional website development, offering a comprehensive understanding of this widely-used content management system.

Expert or Guest Profile (In Detail):

Mr Abhishek Pujara, Sr. Web Engineer, Techmicra, Ahmedabad

No. of Participants: 30

Impact of that event in terms of POs & PSOs:

1. A JQuery workshop enhances students' understanding of client-side scripting and web development technologies, contributing to their overall engineering knowledge.
2. Participants in the workshop learn to analyze and solve problems related to user interface (UI) development using JQuery. This skill is valuable in various computing contexts.
3. By creating interactive and dynamic web pages with JQuery, students develop skills in designing and implementing solutions for enhancing user experiences on the web..
4. JQuery is a widely used library in web development. Familiarity with JQuery adds to students' proficiency in modern tools, aiding them in real-world projects.
5. For any web development project, effective use of JQuery can contribute to efficient project management. Understanding how to integrate JQuery into projects aligns with project management principles.
6. Understanding JQuery involves applying programming and mathematical concepts, aligning with this outcome. PO1,PO3,PO5,PO6,PO11,PSO1 were addressed in the session.

These highlights offer participants a comprehensive understanding of JQuery.

Photographs:

Student feedback:

“The session helped us to learn JQuery in a practical way too”

“Expert really taught us the concepts very nicely”
