

Internal Quality Assurance Cell (IQAC)

The Internal Quality Assurance Cell monitors the academic and research quality at the Institute. It periodically assesses the academic programmes or projects, stimulates the academic environment for promotion of quality teaching-learning and research, encourages accountability and autonomy, undertakes quality related research and collaborates with other stakeholders for quality evaluation and promotion.

Activities

- Develop and apply quality standards for academic and administrative activities
- Facilitate a learner-centric environment
- Disseminate information on various quality parameters of higher education
- Document various programmes resulting in quality improvement
- Develop and maintain an institutional database for the purpose of improving the quality
- Prepare the quality assurance report regularly
- Arrange for feedback from stakeholders on quality-related processes at the Institute ● Organize workshops, seminars on quality related themes
