STUDENT FEEDBACK

Internship Experience

SUN BUILDERS

"Silver Oak Group of Institutes is always being a supporting structure for me which had this time provided me an opportunity to expose myself to an construction site experience which will be helpful Center for me to nurture my technical and practical skills for which I would always be thankful."

BHAVYA SOLANKI AND TEAM Interns
@ SUN BUILDERS

UPASANA INFRAPROJECT PVT LTD

"I would like to extend my thankfulness to Civil Department of Silver Oak Group of Institutes for continuous motivation and guidance for approaching the site training for completing my Internship. As a part of which I have successfully completed my training at one of the best organization of country at where I came across various engineering principles and actual functioning of such organization."

DHAVAL DHANESHWAR Intern @ UPASANA
INFRAPROJECT PVT LTD

KAVISHA CORPORATION

"I am thankful to Silver Oak Group Of Institutes for giving me the opportunity to do internship. Working in construction Site as an intern is very helpful to me for improve my knowledge. I came to know what is the real work of an engineer in industry. All the things which I had learned during my internship has increased my technical knowledge as well as technical skills."

ARPAN PATEL, Interns @ KAVISHA
CORPORATION.

STUDENT FEEDBACK

Internship Experience

LARSEN & TUBRO PVT LTD

"Today in all Engineering field the Construction site Training plays a most important roll for all Engineering student's, where they get the chance to expose themselves to practical things which they have already learned and correlate to practical problems. This Construction Site training almost fulfill all our technical doubts into complete solution in terms of various engineering concepts which we have gone through earlier."

SAURABHSINGH RAJPUT, Interns @
LARSEN & TUBRO PVT LTD.

SHREE INFRACON PVT LTD

"I would like to thank Civil Department of Silver Oak Group of Institutes for allowing me to execute technical Internship during my curriculum. The Internship provides me the chance to improve my theoretical knowledge by implementing my concepts to real field practices. This platform and all the support provided by the college, I think that could change the perspective of engineering learning of students by this kind of Initiatives."

KUSHAL PATEL AND TEAM Intern @ SHREE
INFRACON PVT LTD

RANJIT BUILDCON LTD

"Until and unless you don't have any physical and visual understanding you are not able to learn the things properly. The quote really applies to us as practical exposure we have experienced at bridge site as interns have changed our views on Engineering concepts and its Applications. Faculties at Silver Oak are very much focused to build students industry oriented. We are thankful to them and college for providing this opportunity"

VISHAL ACHARYA AND TEAM, Interns @
RANJIT BUILDCON LTD.

SADBHAV

"Being Interns at such Multinational Group, we have found ourselves fortunate and blessed having such a great technical exposure in Engineering field. We really thank to Silver Oak Group of Institutes for being generous and supportive especially our faculties. The Hands on practices make any simple person into skillful one that we have learned here. Credit goes to SOGI."

SAGAR SHIYANI Interns @ SADBHAV
CONSTRUCTION

SARAL CORPORATION

"We really believe now that internship can change the perspective what real engineering is all about. This training clarified our basic concepts and improve our knowledge related to different methods used for construction.. It also helped us improvise ourselves and built technical skills. We are grateful to Civill Department of Aditya Silver Oak Institute of Technology."

PARTH BHAVSAR, YASH
