## Internship Experience

### AKSHAR AFFORD

*"On the site we come to know the detail knowledge regarding reading all the types of plan. we also got detailed technical knowledge. At the end of the day we learnt that how to execute work and we also improved our technical as well as communication skills. "I am thankful to Silver Oak Group Of Institutes for giving me the opportunity to do internship.*

Prima gajjar and team @akhshar afford

### TAKNIK CONSULTANTS

*"I would like to extend my thankfulness to Civil Department of Silver Oak Group of Institutes for continuous motivation and guidance for approaching the site training for completing my Internship Definitely, we're supposed to gain experience and learn about office work. we got an experience of plan reading, understanding. During our internship hour, we made some estimate of painting work of various buildings such as assembly building, club building, ware houses, factories, etc.*

@ VINAYAK  
INFRASTRUCTURE

### AJAY ENGI-INFRASTRUCTURE

Internship was the incredible experience. It gave us opportunities to learn more, to become knowledgeable and expand our practical skills. Moreover, a pathway for us to reach our future goals and career. Thanks to Silver Oak Group of Institutes for always being supporting structure and giving us opportunities. This experience will be a reference guide for us for the years to come.

### ROYAL PALACE

"Until and unless you don't have any physical and visual understanding you are not able to learn the things properly. The quote really applies to us as practical exposure we have experienced at bridge site as interns have changed our views on Engineering concepts and its Applications. Faculties at Silver Oak are very much focused to build students industry oriented. We are thankful to them and college for providing this opportunity"

Maulik Gadhiya  
@ ROYAL PALACE.

## Internship Experience

### OM ENGINEERING

*"Being Interns at such Multinational Group, we have found ourselves fortunate and blessed having such a great technical exposure in engineering field. We really thank to Silver Oak Group of Institutes for being generous and supportive especially our faculties. Internship was a wonderful experience. It gave us opportunities to learn new thing."*

Vraj Shah Interns  
@ OM ENGINEERING

### URBAN ENGINEERING

*"We really believe now that internship can change the perspective what real engineering is all about. This training clarified our basic concepts and improve our knowledge related to different methods used for construction. It was amazing experience on site. Silver oak college has given a fantastic opportunity to go on site. Because of that we have enhanced our technical knowledge as well as practical knowledge. We are grateful to Civil Department of Aditya Silver Oak Institute of Technology."*

Hemal Dabhi and Richi Patel  
Intern @ URBAN ENGINEERING

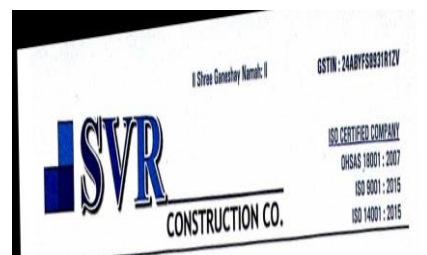

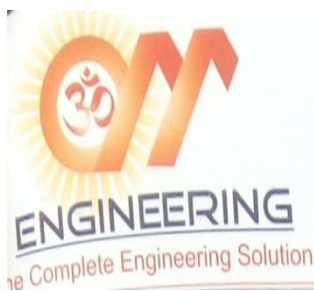

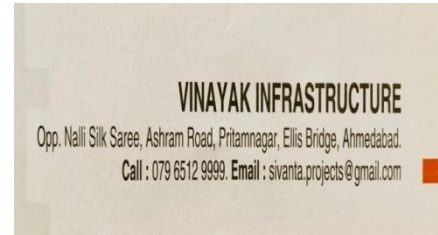

### BHUMITY ASSOCIATES CONSULTANT & ENGINEERS

*"It was a great experience of one month to be on the field and take responsibility for the completion of work. I thank my college Aditya Silver Oak Institute of Technology for giving me this opportunity in the pre-final year of college."*
